Degree Completion Process

University of the Cumberlands approves the conferring of degrees six times per year. These conferral dates represent confirmation that all degree requirements have been met by that date. The Official conferral date is posted to the student’s academic transcript and is the date printed on the diploma.

Diplomas are produced and mailed to students after all final grades are reviewed and it has been confirmed that all degree requirements have been met. The graduation confirmation process takes several weeks to complete. Students will receive a confirmation email of Congratulations once the process is complete. At this time the official degree date will be posted on the students’ transcript and available to request.

How to Apply for Degree Completion

Students must submit the application for degree completion in MyUC within two semesters of their anticipated program completion date. The application must be submitted no later than the semester prior to the intended conferral date.

If a student completes all degree requirements without submitting an application, the University may proceed with degree conferral. Students will be notified through their UC email account and have one (1) week to request a delay; otherwise, the degree will be automatically conferred.

Participation in the commencement ceremony is optional and separate from degree conferral.

Required Steps

• In MyUC, select the Academics application.

• Go to Academic Links and then select Apply for Program Completion/Graduation

• Select Apply , Confirm the details, and Submit your application.

• Click Done once you have completed the application.
